### YEARBOOK

By Travis Dixon

The 2017-2018 staff has been working hard to create an original yearbook, that is truly student inspired. The theme that the yearbook staff selected is, GPS: Finding Our Way. Along with the traditional class, sports and dance pages the staff has selected to do some pages inspired by their theme of travel and adventure. For example one of the spreads will focus on students and their preferred mode of transportation. While another staff member has decided to take a more comical approach to travel and adventure by interviewing students with the question, “What would you do if you woke up in Canada with only \$50 to your name?” So far the students responses have been quite comical. This year’s book will be unique and is packed full of surprises. If you would like to purchase a yearbook for your student you can pick up order forms in the high school office. You can also purchase the books online by clicking on the following link. <https://goo.gl/hdfk3H> The books are \$35 plus tax and come with the customizable options.

**Plainville HS Scholars Bowl:  
2017-2018 Season  
By Luke Schroeder**

The 2017-2018 Scholars Bowl season started out strong with the invitational meet at Natoma High School. The Plainville Scholars managed to win 4 of 8 rounds, which was quite the improvement from typical meets in the prior year. Freshmen team captain Isaiah Russell made a particularly strong debut at the high school Scholars Bowl level with a whopping 22 correct answers throughout the meet. While the team did not place at the meet, I felt very encouraged about the prospects of becoming a stronger team.

During the next few meets after Natoma, it became evident to me that the Plainville Scholars, at no fault of their own, were lacking something that prevented them from being competitive with stronger teams—age!! Our team is quite young, consisting of no Seniors, one Junior, five Sophomores, and three Freshmen. While each team member has their own individual strengths, the majority have not had the fortune to study Chemistry, US History, or Algebra 2. These subjects make up a good proportion of the more challenging questions Scholars face at meets.

The fact that we have such a young Scholars Bowl team is not discouraging; it is quite the opposite. I see potential in each and every team member to grow in their ability and knowledge over time as they study the variety of more challenging courses they will take as they progress through high school. When the 2017-2018 season for the Plainville High School Scholars ended at the Regional meet at Ell-Saline High School, I was already looking forward to upcoming seasons when our team will be more competitive, experienced, and ready to win!
