Nutrition Education

Nutrition Promotion

School promotes participation in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) if applicable and to choose nutritious foods and beverages throughout the day. Menus are posted on school website and/or distributed to families via another method.

Marketing and advertising of nutritious foods and beverages to students is implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

Allow marketing (oral, written, or graphics) of only those foods and beverages sold on the school campus during the school day that meet the requirements set forth in the Smart Snacks Rule.

Allow marketing (oral, written, or graphics) of only those foods and beverages that meet the requirements set forth in the Smart Snacks Rule on the school campus at all times.

Nutrition Education

All students in grades K-12, including those with disabilities, special health care needs and in alternative education settings, will have the opportunity to participate in culturally relevant participatory activities and a variety of learning experiences that support development of healthful eating habits that are based on the most recent Dietary Guidelines for Americans and evidence-based information.

School administrators inform teachers and other school personnel about opportunities to attend training on nutrition and encourage them to attend training on teaching nutrition.

Include nutrition education as part of health education classes and/or stand-alone courses for all grade levels, including curricula that promote skill development.

Integrate nutrition education into other core subjects such as math, science, language arts, and social sciences, as well as in non-core and elective subjects.

Include nutrition and health posters, signage, or displays in the cafeteria food service and dining areas, classrooms, hallways, gymnasium, and/or bulletin boards that are rotated, updated or changed quarterly.

Offer information to families at least once per semester that encourages them to teach their children about health and nutrition, and assists them in planning nutritious meals for their families.

Offer information to families at least once per quarter that encourages them to teach their children about health and nutrition, and assists them in planning nutritious meals for their families.

Physical Activity

Physical Activity

PE General Guidelines

All students in grades K - 12, including those with disabilities, special health care needs and in alternative education settings, have the opportunity to participate in moderate to vigorous physical activity at least 2 times per week during the entire school year.

All students in grades K - 12, including those with disabilities, special health care needs and in alternative education settings, have the opportunity to participate in moderate to vigorous physical activity 3 or more times per week during the entire school year.

All students in grades K - 12, including those with disabilities, special health care needs and in alternative education settings, have the opportunity to participate in moderate to vigorous physical activity every day during the entire school year.

Physical activity facilities in and on school property are safe with sufficient age-appropriate equipment for all students, including those with disabilities. Adequate adult supervision is provided.

School offers lifetime physical activity that teaches basic motor skills, enhances knowledge of concepts related to movement needed to achieve and maintain health. Students learn the benefits of and an appreciation for regular physical activity.

Throughout the Day

Elementary school students have at least 15 minutes a day of supervised recess (not including time spent getting to and from the playground), preferably outdoors. Supervisory staff encourage moderate to vigorous physical activity.

Elementary school students have two supervised recess periods per day (not including time spent getting to and from the playground), totaling at least 20 minutes. Supervisory staff encourage moderate to vigorous physical activity.

Elementary school students have two supervised recess periods per day, totaling at least 20 minutes (not including time spent getting to and from the playground), with one being offered in the morning. Supervisory staff encourage moderate to vigorous physical activity.

School policy outlines guidance on conditions regulating indoor and outdoor recess during extreme weather conditions.

Structured physical activity opportunities, in addition to physical education and recess (where applicable), are encouraged for all students.

Physical Education

The physical education curriculum is sequential and consistent with Kansas State Board of Education approved physical education teaching standards for pre-kindergarten through grade 12.

Elementary students receive 60-99 minutes of physical education per week, which includes at least 40 minutes of moderate to vigorous physical activity.

Elementary students receive 100-149 minutes of physical education per week, which includes at least 70 minutes of moderate to vigorous physical activity.

Elementary students receive 150+ minutes of physical education per week, which includes at least 100 minutes of moderate to vigorous physical activity.

Physical education curriculum encourages a multi-dimensional fitness assessment.

Physical education curriculum includes fitness assessment of at least 50% of all students enrolled in physical education and student fitness reports are available to parents.

Physical Activity

Physical education curriculum includes fitness assessment of at least 90% of all students enrolled in physical education and student fitness reports are available to parents.

Physical education is taught by teachers licensed by the Kansas State Department of Education.

Physical education teachers participate in physical education and/or physical activity specific professional development every 2 years.

Physical education teachers have advanced certification and/or education.

Before & After School

Extracurricular physical activity programs, such as a physical activity club or intramural programs, are offered.

Extracurricular physical activity programs, such as a physical activity club or intramural programs, are offered, with input from students, and meet the needs, interest and abilities of a diverse student body.

Family & Community - PE

Community members are provided access to the school's outdoor physical activity facilities.

Community members are provided access to the school's indoor and outdoor physical activity facilities at specified hours.

Community members are made aware of opportunities to access the school's indoor and outdoor physical activity facilities at specified hours.

Integrated School Based Wellness
