APRIL 2021

STUDENTS OF THE MONTH

11/12 Ben Hansen 9/10 Corbyn Marquess 7/8 Peyton Krob

FIRST GRADE

1st grade is learning so much this year. It's hard to believe that my first grade students are almost second grade students. I am so glad I have been able to teach my students in person all year. Our class has ten students this year. We have 4 girls and 6 boys in our classroom family. We are lucky to have two fantastic paras in our classroom throughout the day. Ms. Val and Mrs. Meitler help keep our daily activities running smoothly.

We recently had Kindness Week and Read Across America Week. We had two "surprise" readers in our room this past month. Mr. Rinehart dressed up as Cat in the Hat and read "Adventures of Taxi Dog" and Mrs. Rudman read us "I wish I had Duck Feet". First grade really enjoyed both of these stories and readers.

As May is quickly approaching we are finishing up all of our end of year goals. Students are meeting their A.R. goals. As a school and a class we are working on making good behavior choices so that we can earn red tickets and attend the end of year red ticket party.

First grade students are getting excited about the possibility of two field trips to wrap up this year. We have written a book titled "When I Grow Up!" We are looking forward to it being published and mailed back to us.

Our classroom hosts all the pop tab collection. My class is motivated by all the students bringing in more pop tabs. It is getting close between two grade levels so keep collecting and bringing those to our classroom.

INDUSTRIAL TRADES JOE DREILING

The school year is nearly at its end and the industrial arts students are busy completing their projects. Many students are attending the Western Kansas Technology Education Fair. Students from around the state will be given the opportunity to display and compare their work. This competition is held at the Gross Memorial Coliseum on the Fort Hays State University campus on April 29th and April 30th. There are many categories for the students to choose from such as: Communication Systems, Power/Energy, Production Systems, and Multi-Pupil Activities.

Any student that has a completed project in the 20-21 school year can enter their work. Entering this competition is completely voluntary. Projects are divided into categories such as woods, drafting, and metals. Then the projects are subdivided by age, because it would not be fair to have a freshman student to compete against a senior with more experience. If your child is interested in entering competitions that display their work, I highly recommend that you have them enroll in the Introduction to Industrial Technology course and get started early in their education.

STATE WRESTLING

**Logan Normandin
Placed 3rd!**

**Ben Hansen
Placed 4th!**

Caxton Smyth
